Memo

On the Petition of certain residents of the Nisoor Pete, Bangalore City praying that the fountains in their street might be secured against being used for washing vessels, clothes &c, the Executive Engineer Hasangatta Division, works suggested that early orders of Govt might be obtained for redress of the evil complained of. The Chief Engineer thereupon recommended the framing of a Bye law to meet Cases of the kind

Memo of 16/10/00 (Sl"), and I 30 of 1900.

the Local Govt Board
Paper re-arranged by

12 The above Notes deal
with three more or less distinct
questions, viz.

I. The framing of a
bye law to prevent the
misuse of water from the
public fountains in the
Bangalore City; &

II. The issue of bye laws
to regulate house-connections
from the Varanasi Water-
Works in the Bangalore City.

I have arranged the papers
in separate sets for facility
of disposal.

As to Section No. I.

The present Census of the
[illegible] City alone shows,
since 1902 of the Municipal
Census [illegible] Vide VII of 1902-1903).

domestic purposes, and
as moreover the Waterworks
are still under the [illegible]
of the C. W. D., it is not necessary
a contributor to the Municipal Commissioners
to frame a bye-law as proposed.

I do not consider that
this argument is sound.
Though the Chamberlain
Waterworks have not been
made over to the Municipal Commissioners,
as the provision of water-supply
is one of the purposes of the
Municipal Regulations, and
the provisions in regard to a
water-supply by [illegible]
[illegible] (under s. 208 (4)
of the Waterworks Consolidation
Act 1878) will be
in order for the Commissioners
to frame any bye-laws
considered necessary under
for regulating the latter of the supply, therefore
s. 225 [illegible] s. 20
where by-laws do not already exist
with regard to water-closets and public
fountains, baths, washing, and does
it not appear a reasonable [illegible]
such borough as a [illegible] Commissioners
a bye-law on these points is
also really necessary

[illegible] of the one name
[illegible] City in the [illegible]

that the Notice published by the President of the Mc[illegible] under date the 6th Dec[illegible] 1901, does not seem to have been made under the authority of the Municipal Commissioners for

Question No. II

13 While the supply of water in the Bangalore City is regulated by the Revised Rules issued by the Public Works dept in Mr Sec No 904-4977 dt 23 Sept 1898, — which Rules, being such as are referred to in the last two sections of the amended S. 92 of the Mun[illegible] Regn, have retrospective effect & affect under S. 93 A, — no such Rules exist for the other [illegible] the Mun[illegible] Commrs of the latter place submit a draft of Bye-laws framed on the lines of those in force in Bangalore

I have compared the two sets of provisions &

The quantity of water allowed in Bangalore is laid down in Rule 7, Sch.

[illegible] rental value, a free allowance of 160 gallons, subject to a minimum of 3000 gallons per month. In Mysore, it is provided (in the last Sch) to allow a maximum supply of 4000 gallons per month at a yearly tax of Rs 5, and 6000 gallons per month for a yearly tax of Rs 10.

The difference in the rate of taxation for varying amounts for the different varieties in these cities

Lastly, as per the addition of the word "[illegible]" in S. 20(2) the word "[illegible]" in S. 20(2) [illegible] with which to make rules and regulations as to many of the [illegible] When we are in the [illegible] passing a new [illegible] a more effective [illegible] municipal [illegible]. The [illegible] is also the case as the law does not provide a [illegible] only a [illegible]

OFFICE OF THE DEWAN OF MYSORE.

Record of Cases Coming before the Council of H. H. the Maharaja.

Subject—*(Clause II of Schedule.)*

Draft Rules prescribing punishm for misuse of water of the Chama-rajendra Water Works in the Bangalore City.

Secretary's Note.

Certain residents of the Bangalore City having prayed that the use of water in the fountains erected in their streets for washing vessels, clothes, &c, might be prohibited, the Chief Engineer recommended that a Bye-law might be framed under the Municipal Regulations to meet cases of this kind. It was suggested to the President of the Bangalore City Municipality that a bye-law similar to that issued for the Mysore City in Govt Notfn No 6531* 8, 6 Dec 1897 might be framed and placed before the Board for consideration, the Board's resolution being submitted to Govt for orders. The President reports that the Members of the Committee are of opinion that as provision has been made in Section 202 of the amended Municipal Regulation restricting the use of water exclusively for bona fide Domestic purposes and as the ...

If pended to this note.

*7.7.97

works are under the manage-
ment of the P.W.D, no Bye-law
under the Municipal Regulation
is necessary

Section 202 of the Regulation
merely defines "Domestic purposes",
but does not expressly prohibit
wastage of water at public
fountains, and its misuse for bathing
and washing, nor does it impose a
penalty for such wrongful acts.
Consequently a bye-law on these
points, on the lines of the one sanc-
-tioned for the Mylapore Circle, is also really
needed.

A draft notification ⊗ laying down ⊗ marked A
the necessary rules under Section 92
of the Municipal Regulations,
is submitted for approval.

GENERAL.

No. 6531—*L. F.* 74 97 *dated 6th December* 1897

Under Section 226 of the Municipal Regulations as applied to the Mysore City by Regulation III of 1888, the Government are pleased to confirm the following Bye-law framed by the Municipal Commissioners of that City and to direct that the same shall come into operation with effect from the 1st January 1898.

Any person found doing any of the undermentioned acts shall be liable to a fine not exceeding ten rupees—

(1) Taking without permission of the President water for purposes other than domestic from a public fountain, stand-pipe or tap or from any other work vested in the Municipality of the Mysore City.

(2) Bathing or washing any cloth, grass, animal or vehicle at a public fountain, stand-pipe or tap.

(3) Rubbing the taps with earth, sand or any other substance so as to cause damage

By Order,

SRIENIVASIENGAR,
Secy. to Govt., Gen. & Rev. Departments.

COUNCIL CASE

2d

Note by the Councillor.

I have studied this question with messrs Chandrasekhara Iyer and Ramaiya The water works were constructed by Govt. They have not yet been formally handed over to the Municipality. Certain rules regarding house connection and the rates chargeable for excess have been framed by Govt. In another connection I am suggesting that the water rate be fixed at 6 per cent instead of the very low rate of 3 per cent which the Board recommended. The whole thing is a Govt. Concern and the Board have nothing whatever to do with it. Even maintenance charges, the Board are unable to pay in full.

Mr. Chandrasekhara Iyer's opinion is not without considerable weight But I would rather not ask the Board to frame a bye-law to which they seem quite opposed. Govt has under Section 92 power to prescribe rules for the management and maintenance of this work. The Calicut City bye laws are excellent and I do not see why they should not be issued by Govt as public [illegible]

Section 92. Mr. Chendrasekhara Iyer agrees with me. All that he thinks is that we (Govt) should keep our power in reserve. But I am afraid this is undesirable. In the first place the Board are perhaps technically right in the next, it is unnecessary to remit the question to the Board which has no locus standi for reconsideration. The Govt may draft and issue the necessary rules at once.

(Signed) C Sreenivasaraghava Iyer

Opinions of the Dewan and Councillors.

The proposed rules may be passed

28.X.02 Amendments

Submitted

21. Rules prescribing punishment for misuse of waters of the Chamarajendra Waters works were duly notified in No. 6976 dated 7th November. (vide Flag A) L730-00

22. As regards the bye-laws submitted for approval by the President to regulate house Connections from the ~~Chamarajendra~~ Vanivilas Waters works in the Mysore-City the President was requested to prepare a set of bye-laws on the lines indicated in para 13 of this memo and submit to Government for approval. (vide G.P. No 2215 dated 2-5-02) L730-00

23 On this order the Board resolved to form a Sub Committee Consisting of 7 Municipal Commissioners against 3 on the former occasion. (Letter No. 121 dated 29th December 1902)

24 The present Sub Committee approve of the Original bye-laws which were returned to the President for Notification. They Consider that Rule 10 is unnecessary in Mysore as there is no separate water

[For original 2 Pt vide

page 26

supply department. They also consider that Rule 13 is unnecessary as the institutions therein mentioned are so few in Mysore that any Regulation to restrict the supply of water to them seems redun
They, however, think that the latter portion of Rule 1, & Rules 14 & 15 of the Bangalore Bs may be introduced into the Mysore City Bye laws. Finally, they recommend that the Board's resolution of the 31st August 1907 the quantity of water to be allowed to party, may be re-affirmed in the grou that the people at Mysore are paying special rates for house connections whi are very much higher than those allowe under section 199 of the Municipal Regu lations.

25 The President has however, sub- mitted a copy of the original set of bye-laws without including in it Rules & 15 as recommended by the Pub. Committee

26 Submitted for orders as to whether the copy received may be returned for with reference to the sug committees & Boa resolution, and if so in what manner

Dr 9/10/2/03

I am afraid that the bye-laws now sent up are the same as those remitted by Govt to the Board for further consideration. The new sub-committee propose certain additions but they have not been incorporated. Then again bye-law No 10 (Bye-law under Sec 205) to which Govt objected is still retained, & no suggestion to amend Section 205 of the Municipal Regulations can hardly be called a bye-law. In these circumstances the bye-laws have to be returned for revision & this. Mr Cole left office has left no responsible office has left

The set of bye-laws was accordingly remitted to the Board for being revised in the light of the Government order No. 2215- dt 2nd August 1902 & the Sub-Committee's proposals.

The President has now submitted a revised set of bye-laws for approval. This has also been perused by a Sub-Committee & approved by the Board. It has, however, to be modified a little before according sanction to it.

(a) Rule 6 of the bye-laws — The last two sentences of Rule 6 in force at Bangalore, which were proposed to be retained by the 1st Sub-Committee, have been omitted in the present Bye laws. They seem to be necessary.

(b) Rule 7 — This being a copy of the Bangalore City Rule 7 Committee

Flag E. a copy of the Bangalore City Rule 7 Committee

ably to propose, where no ground will

water rate is levied under the Municipal Regulations. The first Sub-Committee proposed that the maximum supply of water shall be fixed at 4000/- and 6000/- gallons per a month for the yearly tax of Rs 15/- & Rs 25/- respectively. The Govt suggested in G. P. no. 2215/ 2nd Aug '02 that the limit might be fixed at 2400/- & 4000/- gallons a month. The second Sub-Committee, however, re-affirmed the original proposal. The maximum limit has therefore to be fixed and a para as follows substituted for rule 7.:-

"The quantity of water which a house-holder will be allowed to draw from his house Connection shall be 4000 gallons a month where a yearly tax of Rs 15/- is paid & 6000 gallons a month where a yearly tax of Rs 25/- is paid".

If the [illegible]

water is fixed, the set of bye-laws now received may, with necessary modifications for transmission to the Compiler be sent to the President, for ~~final~~ publication in the Gazette preliminary & ~~finished~~ its being confirmed as required by section 227 of the Municipal Regulations.

Submitted for orders.

VRJ 18/8/03

For facility of reference the rules now in force in the Mysore city & the proposed Bye-laws have been copied in the form of a statement giving in the 3rd Column references to Rules in force in the Bangalore city. with remarks in certain cases.

Though the Water rate is not general in the Mysore city as in Bangalore & the tax is fixed at 15/ & 25/ Rs respectively the proposed Bye-laws make it appear that the Board would adopt the same course as in Bangalore of levying the tax & regulating the supply on the rental value of the house & premises, except

perhaps the General levy of a water rate throughout the city. If this is approved, the President may be asked to arrange for the publication of the Bye-laws in the Mysore Gazette & for submission of the same to Govt. for Confirmation under Section 227 of the Municipal Regulation.

Submitted for orders.

7/9/03

23/9/03

Requesting sanction for the introduction of the "Revised Rules for the regulation of House Connections from the Chamarajendra Water Works" into the City of Mysore

Sec 4

Municipal Board may called upon to make by-laws for giving effect to Secs 197-204 of the Municipal Regn (amended by Act VII of 1899) and submit same for the confirmation of Govt. under Sec 226.

The Chamarajendra Water Works Rules referred to by the resident & recommended for adoption are not quite suitable as some of the rules have been since adopted embodied in the Secs referred to above. These rules unless framed as bye-laws may not be regarded as

13/9/00

MYSORE CITY MUNICIPAL PRESIDENT'S OFFICE,

Dated 7th August 1900 ~~189~~

To

The Secretary to the Government of Mysore,

Revenue and General Departments.

SIR,

In forwarding a copy of the D O. dated 7th July 1900, from the Superintending Engineer, Sanitary works, I have the honor to state that in compliance with his request, water is now given to the City for limited hours. Withal that, the supply is not sufficient. The following causes appear to contribute to the same -

1 All the tanks in the City have dried up and consequently the wells have also failed to a great extent. The pipe water is therefore utilized for washing and bathing purposes.

A great quantity of water is wasted in the Palace Engine house. To

To prevent wastage a sucking tank was built for using after the same water for the Electric Engine. This arrangement was abandoned on the ground that it was not working properly. The Palace Controller was addressed on the subject, but nothing has been done to restore the tank.

A large quantity of water is utilized in the restoration of the Palace. The Executive Engineer of the Palace Division was consulted on the matter and his opinion is that it will retard the work if the pipe water is not utilized. Nearly 1500 coolies are employed daily in the restoration of the Palace. The quantity of water these coolies use in addition to what is taken for the construction of the Palace can be easily imagined. If the Executive Engineer of the Palace Division is asked to make his own arrangements for

for water for the construction of the Palace from other sources, it will lead to economize pipe water.

Several houses belonging to the Government, palace and private persons, have house connections and the wastage in those houses, especially in the buildings belonging to the Palace is enormous Unless these connections are provided with the gauges and arrangements made to levy an excess charge, the wastage, will not be stopped.

In the Bangalore City the enclosed Revised Rules are in force and I beg to propose the introduction of the same, each house being allowed to take 20 per cent more than in the Bangalore City – the concession being made on account of the Special water rate that is now levied on all house connections The Board has also approved of the adoption of the above Revised

Revised Rules

I request that you will kindly obtain the sanction of the Government for introducing the Revised Rules with the alterations proposed above.

I have the honor to be,
Sir,
Your most obedient Servant
[illegible]
For President

Dear Mr Chaynuda Ray Esq.

I quite agree with you that something must be done to reduce the consumption of water. I have written to Government to make the supply intermittent and pending orders, you might have the water turned off at 9 P M. nightly.

introducing bye. laws for prohibiting the nuisance of water in the Bangalore city is under the consideration of the Board and their final decision

on the subject has been deferred to the meeting to be held on the 26th instant. The Collr calles for on the matter in his docket no: 7128-8 dated the 22nd November 1900 will be submitted by the 5th end of this month.

Municipal Law

For President.

67 (5)

Office of the Municipal Commission,

City, Bangalore, 5th October 1901.

No 127/1 L.611

From

THE PRESIDENT,

Municipal Commission,

BANGALORE CITY.

To

THE SECRETARY TO THE GOVERNMENT OF MYSORE,

General and Revenue Departments,

BANGALORE.

Sir,

With reference to this Office letter No 88 of the 14th September 1901 regarding the framing of by-laws to prohibit nuisance of water in the Bangalore City, I have the honor to state that the question was referred to a Sub-Committee for consideration and report.

The members of the Committee reported that as in Section 202 of the Amended Municipal Regulations VII of 1889 sufficient provision has been made to restrict the use of pipe

exclusively for bona fide domestic purposes and as the water works are under the management of the Public Works Department, no bye-law under the Municipal Regulation was needed. The Board having at the meeting of the 26th September last agreed with the views of the Sub-Committee, decided that they were unable to propose any bye-laws in the matter to be brought into force in Bangalore at present. Copies of the Sub Committee's report and the Board's Resolution are herewith submitted.

I have the honor to be
Sir
Your Most Obdt. Servant

President

Dated

62 — 5/a

Memo

Section 202 of the amended Municipal Regulations VII of 1889 runs as follows:—

"A supply of water for domestic purposes shall not include the supply of water for draught animals, or for washing Carriages where such draught animals or Carriages are kept for sale or hire, or a supply for watering roads or gardens or for any trade, manufacture or business or for fountains, or for any ornamental or mechanical purposes."

Section 199 provides that the Commissioners may lay down water pipes &c. It is to be regretted that the Board

should be asked to frame a bye-law while the water works have not as yet been handed over to them. The Sections above quoted have therefore no application to the existing water works which are still Govern-ment property and not those of the Municipality. The Water works Engineer refers in his letter to the revised rules for the regulation of house con-nections published as Noti-fication No 904-4977 dated 2nd September 1898 under the Signature of Col. McNeil Camb-bell, Secretary to the Govt of Mysore Public Works Depart-ment. He urges that the Board may frame rules in pursuance of the said Notification. When the Water works are handed

over to the Municipality, the question will have to be Considered. In the Engineer's letter there is also a reference to wastage of water in the Saravanapadi Extension which is not within the Municipal limits. This reference itself is sufficient to show how the Board is powerless in the matter. Under these circumstances we are unable to frame any bye-laws on the subject

To

A V Narayanaiyyah Esqr. M.A
Secretary to the Govt of
General and Revenue

Sir,

With reference to Government Proceedings No. 9774/L.S. 30-1900 dated 4th February 1901 and subsequent reminders requesting the submission of the views of the Board as to the preparation of Bye-laws for regulating the supply of water into the city of Mysore, I have the honor to state that the question was discussed in the Board and referred to a Sub-Committee for framing Bye-laws and the report submitted by the Sub-Committee was placed before the Board on 31st August 1901 and duly adopted with certain modifications.

2 Both in the Sub Committee and at the Board meeting, Mr. Venkatakrishnaiah was present. He not only raised no objection to placing the draft Bye-laws before the Board for approval, but also supported the modifications made at the Board

meeting

meeting. A copy of the Board's resolution with the modifications, has already been submitted with my letter no. 711 dated 29th April 1901.

3. Mr. A. Krishna Rao who was also a member of the Sub Committee, was absent at the Board meeting. Now he and Mr. Venkatakrishnaiah have sent in a letter in which while maintaining that the Board have no power to frame such Bye-laws, they propose modifications of some of the Bye-laws already passed by the Board.

4. The Sub-Committee while drafting the Bye laws have proposed the insertion in Section 205 of the Municipal regulation, for the words "as far as possible" after the word "shall" as otherwise it would be difficult for the Municipal Commissioners to literally fulfil the conditions of the Section. The Board have approved of this amendment. If modifications such as those referred to in para 3 above, be allowed to be proposed by the Municipal Commissioners at any stage, I apprehend

apprehended that there will be unnecessary delay and difficulty in coming to a satisfactory conclusion.

5 Therefore a copy of the Bye-laws framed with that of the Sub-Committee report and a copy of the new proposals above referred to, are herewith submitted for the orders of the Government and if it is decided to adopt the Bye-laws as already approved by the Board, the same will be published in the Mysore Gazette and then finally submitted to Government for sanction.

I have the honor to be,

Sir,

Your most obedient Servant

H Thompson Clay

For President

mh

The Sub-Committee appointed at the July meeting of the Board to Consider the Byelaws regulating the water-Supply of the city, met on Friday the 23rd August 1901 and framed the following Bye-laws which they submit to the Board for their approval:-

I Bye law to Section 20 (1)

1 No connection shall be made to any house or locality where the Capacity and pressure of the public mains will not permit without detriment to the Street Service

2. The Municipal Commissioners shall determine the Size of each house-connection with due regard to the Capacity and pressure of the public water mains of the locality

3. The yearly tax for water Supplied to any house, shall continue as at present, namely, rupees fifteen for a house-Connection with a half-inch pipe; and rupees twenty five for a house-Connection with an inch pipe.

This seems out of the place for the bye-laws.

4. If a person paying tax for house Connection, wishes to have the Supply cut off, he shall give due notice to the Municipal Commissioners, and he shall pay the tax for Six months only if the Supply is c

during the first half of the year.

II Bye-laws to Section 201 (2)

5. The maximum supply of water to a house where a yearly tax of Rs 15/= is paid shall be 4000/= gallons monthly; and for a house where a yearly tax of Rs 25/= is paid 6000/= gallons monthly.

6 Any house-holder who is found to have used in any quarter ending with the 31st March, 30th June, 30th September or 31st December of any year, a quantity of water in excess of the quantity allowed under the last preceding bye-law, shall pay for such excess a price calculated at the rate of eight annas for every 1000/= gallons or fraction thereof used in excess of the authorized allowance.

7. The last two preceding bye-laws shall not be regarded as permitting the use of water drawn from a house-connection for other than domestic purposes.

8. The Municipal Commissioners may provide and maintain in due working order for any house connection they may desire a water meter of approved size and description for the accurate gauging of the water consumed, the cost to be borne by the Municipal Commissioners.

III Bye-law to Section 204

9 All pipes, taps and other necessary works for all house Connections shall be provided, renewed and repaired by the Municipal Commissioners. The cost of all such pipes, taps and works required for a house-Connection, shall be borne by the house-holder applying for, or desiring the Connection, and he shall pay in advance the estimated cost.

IV Bye laws to Section 205

10 (We think it necessary that this Section should be slightly amended, for (1) it will be impossible for the Municipal Commissioners to literally fulfil the Conditions of the Section, and (2) the bye-laws we have framed conflicts with the Section as it now stands The amendment we propose, is that the words "as far as possible" be inserted after the word "Shall" in the first line).

11. The house-Connection in Cases of unforseen emergency, is liable to be stopped, or the Supply reduced by the Municipal Commissioners without any notice. But when the stoppage is over an extensive area, or is due to urgent work

which can previously foreseen, such previous notice as is possible under the circumstances shall be given by the Municipal Commissioners.

V Bye-law to Section 206.

12. If any house-holder desires, in order to check the wasteful use of water by his Servants, some automatic arrangement, under which it would not be possible to draw from a house Connection more than any fixed quantity during twenty-four hours, the municipal Commissioners will endeavour to meet any such desire where possible, the house-holder applying for the management paying for the cost of the same.

VI General Bye-laws—

13. The municipal Commissioners reserve to themselves the power, whenever they deem fit, to alter or modify the foregoing bye-laws or to abolish altogether the System of house-Connections established thereunder.

14 Every house-Connection shall be regarded as established, Subject to the Conditions and regulations contained in the above bye-laws or

as these bye-laws may be altered or modified hereafter by the Municipal Commissioners.

IV Report of the Sub-Committee framing the draft Bye-laws in connection with the Water Supply in the city of Mysore:-

Resolved that the Bye-laws framed by the Sub-Committee be adopted by the Board with the following modification:-

1 That the maximum monthly supply of water be 6000 and 9000 gallons for a yearly tax of Rs 15 and Rs 25 respectively.

2. That if a person gives notice to cut off supply of water, he shall pay 3 months' tax, if the water was supplied for any period upto a month; and six months' tax, if supplied for a period exceeding one month but not exceeding two months.

(Sd) Narayanda Rajurs
For President

Narayanda Rajurs
For President

To.

The City Municipal Board
Mysore.

Gentlemen of the Board

We, the undersigned members of the Sub-Committee appointed by the Board to frame bye-laws to regulate the supply of water to house service Connections, beg to offer the following objections and amendations to the report submitted to you by the Committee:—

I. No bye-laws can in our opinion be framed under sections relating to water as the sections themselves have not been introduced into the city.

Bye-laws (1) and (2) of the report of the Sub-Committee may remain as they are

As regards bye-laws (3), (5), (6) and (8) we observe that

(a) it would not be lawful to limit the supply of water for domestic use as regards persons who have already been paying the present high water rates of Rs 15 and 25, and it would be with greater injustice to tax them extra for the extra water used over and above the minimum. It would therefore be just and proper not to restrict the use of water for domestic purposes

-purposes for persons who pay Rs 15 and 25 a
Moreover, it is against all principle to suppose
that man is ordinarily a wrong doer We,
therefore, propose that there be no restriction
placed on the domestic use of water made by
persons paying Rs 15 and 25 a year, provided that
if in the opinion of the municipal Commissioners
of the mohalla and the municipal Executive any
such person has been making a non-domestic use
of water or if a garden is attached to the house
of any such person; a meter may be used in
his case and restriction may be placed on him
as regards the quantity of water which may be
used by him and which may be fixed at the
rate of 6000 and 9000 gallons etc.

(6) In order to afford facilities to the middle
classes in the town, a third rate of Rs 8 a year
with half inch pipes may also be introduced They
may be given 3000 gallons a month. The extra
water utilised may be fixed by a meter and
they may be charged for the same.

This measure would Conduce to
bring to the municipality more money than at
present and would enable the municipality to
preserve a permanent supply of water by —
improving the Balaghat water works, with the money
obtained in this behalf supplemented by the amount
of Rs 5000 now received as Rs 15 and Rs 25 taxes
and the savings of above and Rs 10000 obtained by
the Toll-taxes after defraying the Expenses of water
establishment of Rs 10000.

IV

Bye-laws (4), (7), (9) may stand good and
section 205 must stand as it is

We beg etc.

II. Attention is invited para 3 of the Ex. Engineer's letter, reporting that the present state of affairs is very unsatisfactory. The Govt. may therefore be moved to pass early orders, if they have not done so already.

For Lieutenant Colonel
Chief Engineer of Mysore.

Drafted Rad 29/7/02.

Central Jail Press, Bangalore.—21-9-98.

Receipt of Chief Engineer's no 5488 of the 27/10/1899, no orders seem to have been passed by the Government on the subject.

The present state of affairs are very unsatisfactory. The fountains and the lakes are altogether at the mercy of those mischievous. The Head Sumkes of the water Supply Department are helpless in the matter of checking wastage of water and desecration of fountains. And the Gazette Notification of the 6th December 1901 seems not to have been enforced on the offenders.

∴ Resp, therefore, that the Chief Engineer be so good as to address the Government again on the subject.

reported that as in section 202
Amended Municipal
VII of 1889 sufficient provision has
been made to restrict the use of
pipe water exclusively for bonafide
domestic purposes, and as the water
works are under the management of
the P.W.D. no byelaw under the Munici-
pal Regulations is needed.

The Board having at the meeting
of the 26th. September last agreed with
the views of the Sub Committee decided
that they were unable to propose any
bye-law in the matter to be brought
into force in Bangalore at present.
Copies of the Sub Committee's report and
the Board's resolution are herewith re-
submitted.

Read. 7

Letter no 325

dated the 7th November 1901

from the President of

Municipal Commission,

City, submitting

for approval a copy

of the bye-laws to

govern service connection

in the Mysore City as

framed by a Sub. Committee

appointed for the purpose and

approved by the Board.

Order thereon is 2265 / 24-10-1901

A comparison

of the bye-laws submitted

with the Rules issued

by Govt. in the P. W. D.

no. 904-4971 dated

20 September 1899

(P. W. D.

of 121 of 16/1/03

From the Pt Mysore City

no/215 of 29/9/1902

the supply of water in the Bangalore City, shows that the following provisions in the said rules have been omitted in the Bye-laws, viz Rules 1, 10, 13, 14, 15, 16 & 17. Of these, the first portion of Rule 1, and Rules 10, 16 & 17 are unnecessary. It is not, however, clear why the others were not adopted

2. Bye-law No 5 fixes the quantity of water that can be used, but on different lines from those laid down in Rule 7 Govt ~~Circular~~ Consider that the monthly free allowance of water may be fixed at 2400 & and 4000 gallons for a yearly tax of Rs 15/- and Rs 25/- respectively as regards

the addition of the words
"as far as possible" after the
word "shall" in section 205
Govt observe that it is
hardly worth while to make
such small amendments to
the present Regulations now
when a new and more up-
to-date Municipal Regu-
lation is about to be passed
~~shortly~~ at no distant date
The addition is also un-
necessary, as the law does
not require a rigid ad-
herence to its terms, but
only a reasonably complete
compliance therewith, having
regard to what is practicable
and ~~advisable~~, the Munic
Commissioners can themselves
determine what is a
"sufficient" supply.

L. The 5th section -

Revised Rules for the Regulation of House-Connections from the Vani Vilas Water Works

---

1. The Supply of water from Vani Vilas Water Works being intended exclusively for bona fide domestic purposes, the water drawn ~~therefrom~~ therefrom, whether from public fountains and taps or from private house-connections, shall not be used for any other purpose whatsoever. A Supply of water for domestic purposes shall not include a supply of water for horses or washing carriages, where such horses or carriages are kept for Sale or hire, or a supply for any trade, manufacture or business or for fountains or for any ornamental or mechanical purpose or for garden or roads. Water is [illegible] washing, [illegible]

purpose, may be collected and used for gardening or other non-domestic purposes but on no account shall pure water be drawn from the taps for these purposes; provided that, with the special permission of the President, water may be taken from the fountains and hydrants for watering public roads on special occasions.

2. Until further orders, private Connections to houses from the Vani Vilas Water-Works will be limited to houses whose annual rental value is not less than Rs 120 and to localities where the capacity and pressure of the public water mains permit of such Connections being made without detriment to the Street Service.

3. For every house-Connection there

there shall be provided and maintained in due working order, a water meter of approved size and description for the accurate ganging of the water Consumed, provided that the Municipality may, on the ground of Cost, dispense with the erection of water-meters in the case of very small houses not likely to Consume more than the free allowance referred to in Rule 7 below.

4 All pipes, taps, water meters and works required for a house Connection, shall be of such dimensions, character and material as the Municipality may approve, and they shall always be under the Control of the Municipality and shall in no way be interfered with by any others, and they shall be provided, renewed and repaired by the Municipality. The Cost of all pipes, taps and works required for a house Connection shall be borne by the house holder applying.

applying for, or desiring the Connection, who shall pay in advance the Estimate of Cost. The whole should be fully paid for before the house-Connection is permitted to be used. The Municipality will supply, fit up and maintain the meter at its own Cost

5. The Municipality shall determine the Size of each house-Connection with due regard to the Capacity and pressure of public water-mains of the Locality.

6. The house-Connection in any case is liable to be stopped or the supply reduced by the Municipality, without any notice or assigning any reason. But when stoppage is over an extensive track or due to exigencies which are previously foreseen, such previous notice as is possible under the circumstances

circumstances, will be given by the Municipality. If the Municipality has reason to believe that wasteful or unauthorized use is made of water drawn from any house Connection, it shall be its duty to stop such Connection forthwith under this rule.

For Press Stamp

The quantity of water which a house-holder will be allowed to draw from his house-Connection (free of any Charge other than the general water rate to be assessed upon the annual rental (value of his house and premises) shall be regulated in accordance with the scale hereinunder:-

For every rupee of the rental value of the house and premises, the authorized free allowance will be 160 gallons, but in case such free allowance shall be less than 3,000 gallons per month

Any house-holder who exceeds

to have used in any quarter, ending with 31st March
30th June, 30th September or 31st December of
any year, a quantity of water in excess of the
quantity allowed under the last preceeding
Rule, shall pay for such excess a price,
calculated at the rate of 8 annas for every
1,000 gallons or fraction thereof, used in excess
of the authorized allowance.

12 annas
per Bag

9 Rule 7 and 8 shall not be regarded
as permitting the use of water drawn
from a house Connection for other than
domestic purposes

10 The Government reserves to itself
the power whenever it deems fit, to alter
or modify the foregoing Rules, or to abolish
altogether the System of house-Connections
to be established hereunder.

11 Every house Connection shall be

be regarded as established, subject to the Conditions and regulations Contained in the Rules as above or as they may be altered or modified for the time being by order of Government

12. Rules 1, 4, 5, 6, 11 above shall apply mutatis mutandis to public street fountains which have been or may be allowed to be erected at the expense of private individuals for dedication to the public use and such fountains shall further be subject to the following Conditions, namely,

(1) That their number shall be strictly restricted by the bona fide particular requirements of particular localities

(2) That they shall, in no case, be within the distance prescribed for the time being by the Municipality for particular localities from any other public fountain

(3) That the free and unobstructed use

use, at all hours, by the public, or section of the public, for whose use they are intended; be duly safeguarded, and

(4) That their dedication to the use of the public, or of a section of the public, as the case may be, be posted up in legible characters in English and Canarese.

13. After the 30th June 1903 [or from the date of G.O.] no water cart will be allowed to take water from a public fountain, except at such places as may be specially set apart by the Municipality for the above purpose The Municipality shall cause notice boards to be put up at particular fountains indicating that water-carts are allowed to take water therefrom. and after the 30th June 1903, no water cart will be

be allowed to take water from any fountain

at which no such notice board has been put

up.
